

Sprint 2 Report

Memori

Actions to Stop Doing

- We are completely satisfied with our current process. We were able to implement the actions we described in the previous sprint report, and it is working out very well. Our daily standups are much more structured, enabling us to get more questions answered and confusion reduced in a shorter period of time. We are actually pushing code significantly more often, leading to everyone being able to contribute quicker than before.

Actions to Start Doing

- Make more pr's!, even if they aren't complete, just having them up lets other teammates know what's going on with other features, can have the opportunity to give input.

Actions to Keep Doing

- Planning poker for estimating task story points. This has been a great way to ensure that everyone is on the same page and that we are not overestimating or underestimating the effort required to complete a task.
- Communicating efficiently through online channels and taking initiative to meet up when needed to accomplish tasks efficiently. This has been a great way to communicate quickly when needed.
- Zed collaboration feature for peer programming / writing documents. We use this religiously to code with each other, and it makes it easy to share code and collaborate on documents.
- Keep using the kanban github project tracker. The tracker clearly lays out what needs to be done, and what we have done.

Work Completion

Completed

N/A

Incomplete

User Story 2.1 - As an application user, I want to be able to connect to my Memori device using bluetooth from a mobile device.

- Assigned to: Kenric, Preston

User Story 2.2 - As a developer, I would want to see my github statistics on the Memori device.

- Assigned to: Cainan

User Story 2.3 - As a student, I would want to see bus information on the Memori device.

- Assigned to: Julian

User Story 2.4 - As an efficiency seeking user, I want to be able to display multiple widgets on my device at once.

Sprint 2 Report

Product / Team: Memori

Revision 0.1.0

2/08/26

Revision Date: 2/08/26

- Assigned to: Surrendra, Cainan

Completion rate

Completion rate: 0 %

Completed 0 user stories.

Estimated Work hours Completed : 0

Total number of days during the prior sprint : 14

User stories / day : 0
